Curriculum . . . Page 14

There is a difference between education and learning. One is compulsory and one is voluntary. One requires a teacher-centered classroom, the other requires a taxing of individual minds in a classroom situation so that the maximum will be gained. One is concerned with the traditional attitude of gaining knowledge, the other is concerned with creativity paralleled with academic freedom. And at Del Norte, we learn.

Activities . . . Page 35

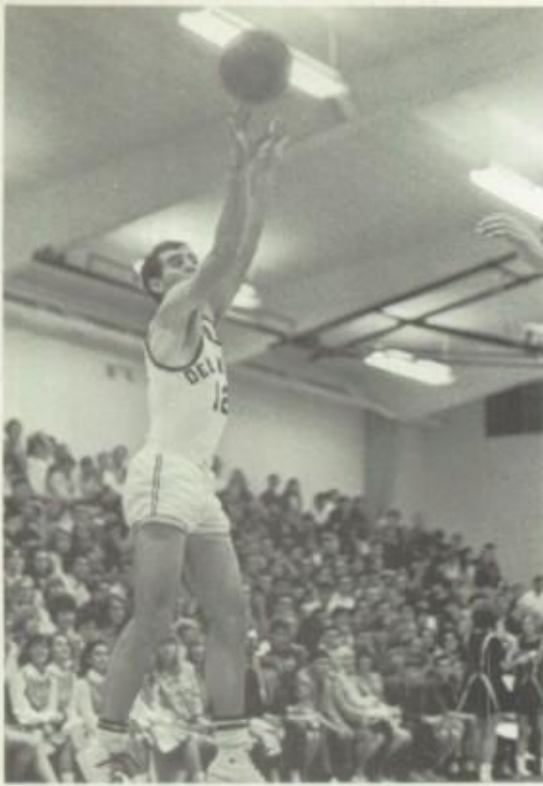

Activities are essential to the development of a well-rounded student. He improves skills, learns talents and inter-acts with others, all of which produce a more well-rounded person.

Members from the Yoga Academy in Albuquerque demonstrate skills in a sociology class.

SPORTS

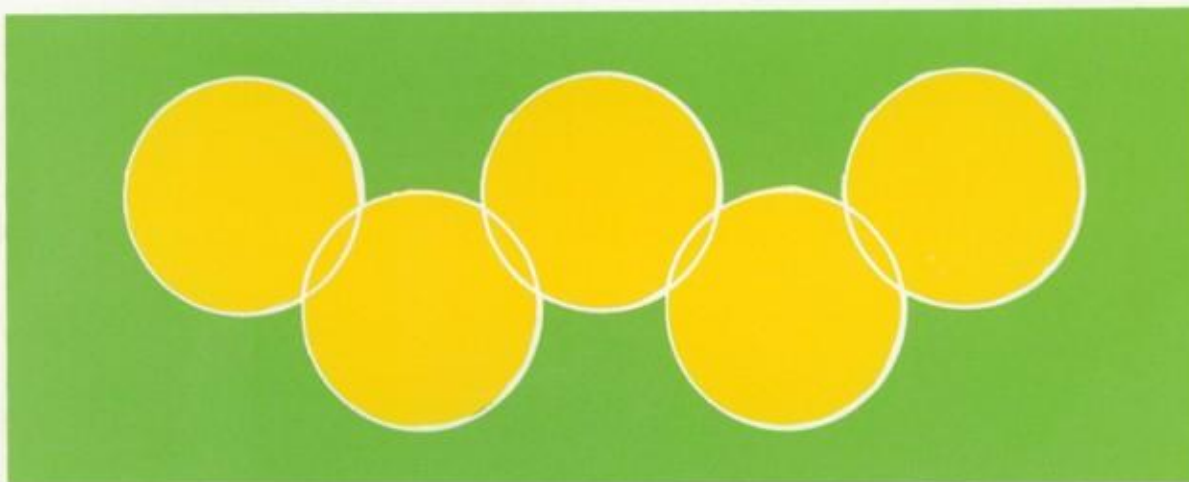

Sports . . . page 66

This year is different than any other in athletics. This is the OLYMPIC YEAR 1968. Winter and summer games will be the whole of all events. The Olympics is the main goal of most young athletes.

This is true at Del Norte and has been shown by the outstanding results of all sports. The Del Norte sports program has been one of the finest in the state.

Organizations represent a very important part of every well-rounded student's life. To be a member of a group and to work toward a common goal is most satisfying and something no one should deny himself.

No matter what a student's interests may be, the wide variety of organizations at Del Norte gives him much from which to choose. Page 134.

Starting on Page 150 you can view Del Norte's leaders, the seniors. These people have spent three years working for the honor of being a senior and they're proud of it.

The juniors of Del Norte are the "inbetweens". They are above the lowest yet below the highest. Juniors start on page 174.

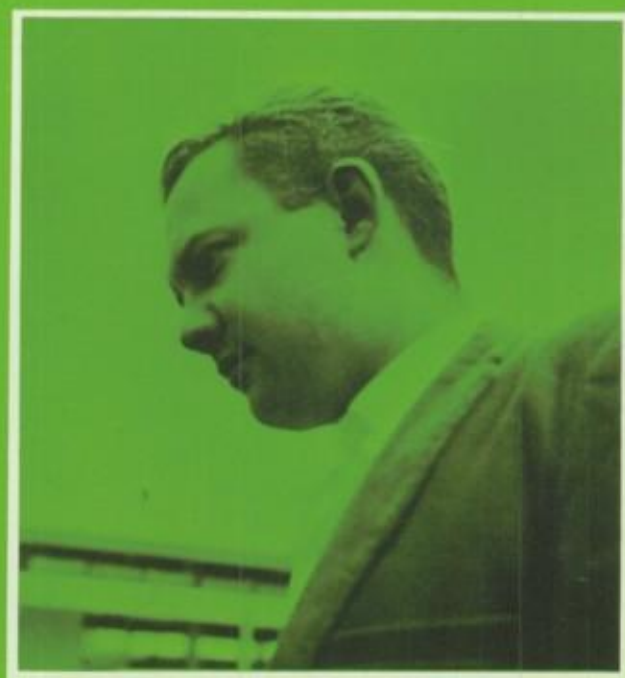

Page 192 starts the lowly sophomores. Although they may not be much now, they still have two years left to improve.

Although there are three distinct classes at Del Norte there is still a close relationship among all, because whether you are a sophomore, a junior or a senior, we are all Del Norte Knights.

The optimism for the success of the 1967 football team was rather low as the season began because of four players with any experience and a new coach. All proved themselves to the school and to the city finishing with Del Norte's first winning season of 6-3.

An Annual is only as good as the amount of work put into it. The 1968 *Pavilion* reflects the work of the staff, the joy shared by all Knights, the tense moments of competition, both athletically as well as academically and a permanent pictorial account of life at the Knight's Castle for 1968. Reflect and enjoy.

"What though the radiance which was once so bright
Be now for ever taken from my sight,
Though nothing can bring back the hour
Of splendor in the grass, of glory in the flower;
We will grieve not, rather find
Strength in what remains behind;"
